

educating for financial freedom: **market volatility**

don't stop contributing

you're saving and investing for a purpose- **retirement**.

contributing to your retirement plan when there is market volatility, but those periods can actually be the best time to invest.

what about a loss?

losses in the account don't necessarily indicate business failure, and during these periods, shares of mutual funds can be bought at a discount.

remember

during down turns in the market you are buying shares of the mutual funds at a discount. who doesn't love a sale?
